

FERRAN BERMEJO NUALART, Technical Director of the Catalonia Institute of Construction Technology, ITeC,

DECLARES

That on 5th December 2023, procedures were initiated for drawing up two European Technical Assessment document – 2 ETAs – for the underneath specified product and use:

Product/System: ETA 1: FILTECT panels + its clips
ETA 2: CERADIR V panels + its clips

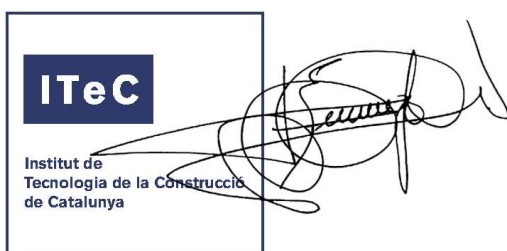

Generic type and use: Cladding kits composed of cladding element (fibre cement panels) + its clips (Vertical + Horizontal) for Ventilated Facades.

Holder: **KMEW CO.,LTD**
13F Crystal tower 1-2-27 Shiromi Chuo Osaka (Japan)

In March 2024 the assessment plans of the ETAs were presented and approved by the client and ITeC. Currently samples are being prepared at the laboratory and testing is foreseen to take a place along the second half of 2024.

The validity of this declaration will be maintained as long as this ETA remains in the list of ETAs under elaboration that ITeC keeps updated on the ITeC's Register.

In recognition thereof, I sign this document.
